About Us

Emanouil Brothers, Inc. was founded in 1986 to provide landscape services for leading universities and prominent public and private projects. With minimal equipment, a small staff, keen design sense and a hands-on approach, we began creating a company that has since grown to become an industry leader.

Over the past 31 years, we have continued to grow while maintaining our commitment to quality and process improvement. Our customer base has expanded to include a wide variety – from local residences to major estate properties, small commercial buildings to leading universities, and other prominent projects throughout New England.

Today, Emanouil Brothers, Inc. has one of the most extensive landscaping fleets in New England and is positioned to handle a large volume of service contracts within tight timelines with some of the most competitive rates in the region.

We provide our clients with professional consultation, design and installation reflecting the highest standards in horticultural presentation. Through a vast array of specific services, backed by a highly skilled management team and supported by experienced installers, we can guide the most intricate design to fruition.

Our Services

Emanouil Brothers takes pride in helping our clients to enhance the look and value of their homes. From softscaping, which adds natural beauty, color and texture to a garden, to hardscaping, which constructs features to form focal points and incorporates the landscape in a functional yet elegant way, we will work with our clients to customize a project that will satisfy their needs and complement the space. Should the time ever come to sell the property, getting top dollar will prove much easier with an investment in landscaping.

From Residential to Commercial

Emanouil services both residential and commercial properties. Attractive landscaping can transform or enhance the curb appeal of a commercial property and create an excellent first impression that draws customers and clients to an area. At Emanouil Brothers, our dedicated professionals work with our clients to design a project that is both functional and visually appealing in order to achieve their goals on time and at a competitive price.

With a large variety of styles, patterns, and colors of stone to choose from, there are many possibilities when choosing a stone feature for a property. Emanouil Brothers has the experience and attention to detail to design and create a functional and visually appealing fixture that complements the landscape.

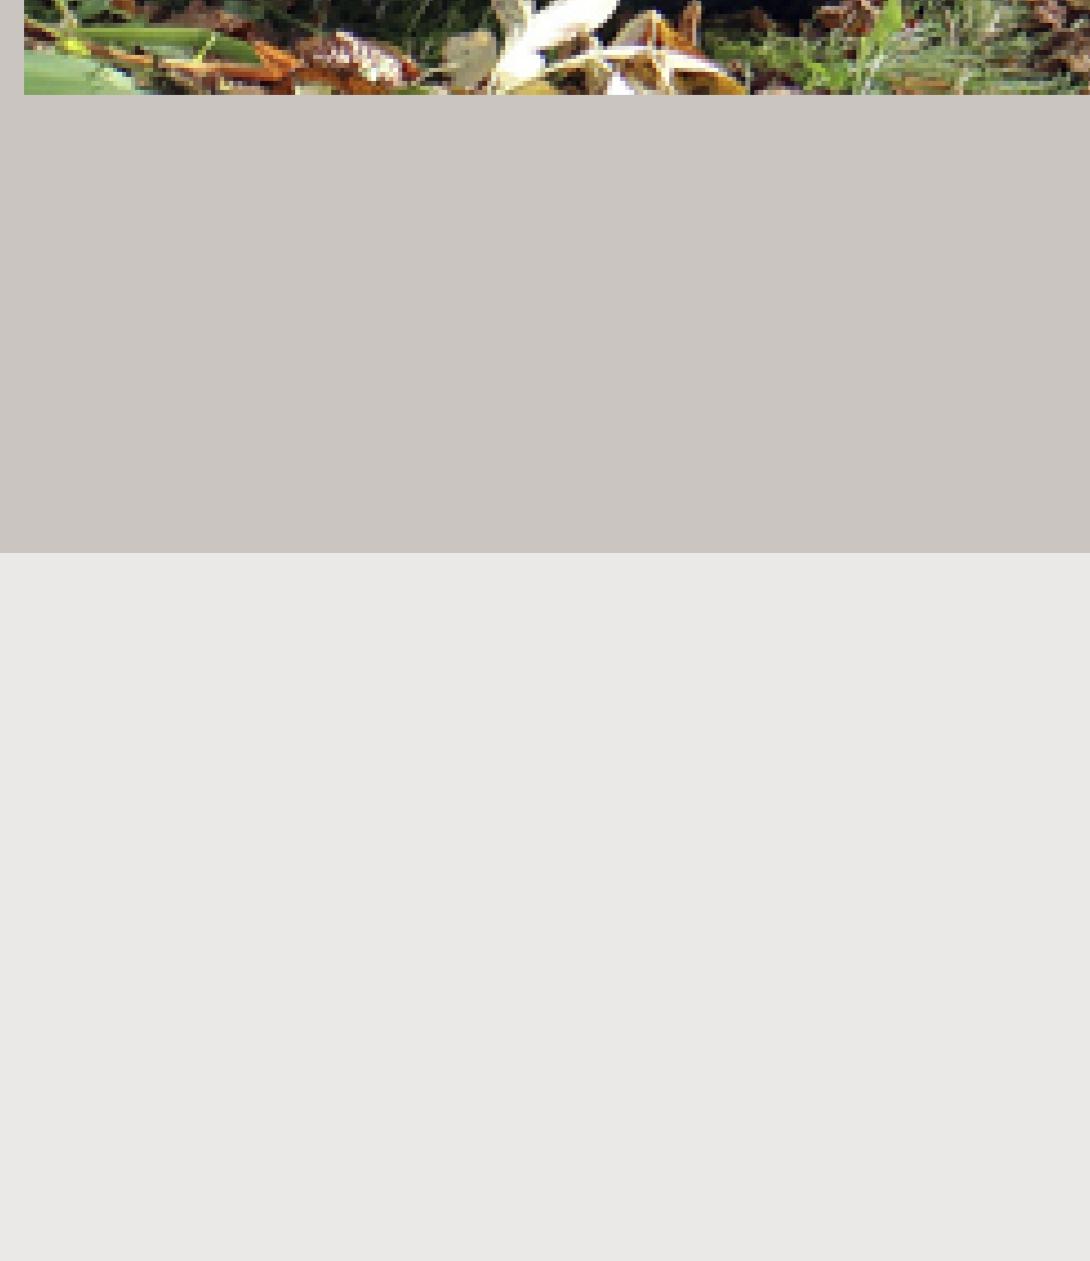

Irrigation

- Commercial, Industrial, & Residential
- Roof decks
- Water conservation
- Decorder two-wire systems
- Hunter, Rain Bird & Baseline products

An irrigation system is used to create and maintain plants, lawns, gardens, and custom landscapes by ensuring that water is spread regularly and evenly throughout a given area. This can help reduce water consumption and save money by maximizing the efficiency of water usage while maintaining a healthy and beautiful landscape. Emanouil Brothers would be pleased to design and install a customized system to best suit your landscape and your budget. We will also work with you to maintain your system for optimal performance for years to come.

laurie,

These guys redid my whole back yard. We had a huge moss problem, they ripped it up, brought in new loam, leveled it and hydro-seeded. They worked fast and did a great job. I couldn't be happier with the quality work they did.

sutton pond
condos

The Trustees of Sutton Pond have been very pleased with the snowplowing and landscaping services provided by Emanouil Brothers for the past months. Possibly more important than the Trustees' opinion is the opinion of the unit owners from whom we have received many positive comments regarding the condo grounds.

I would like to sincerely thank you for your commitment as well as your team's dedication to talk on a weekly basis (I should say daily basis) and resolve any issues that arose. It was truly a pleasure to have you and the rest of your guys work with us to manage countless complex issues. Whether it was schedule, sequence, manpower, details, coordination with other trades, safety, quality management, financial, or general problem solving issues, you and your team stepped up to do whatever it took to get it done.

I wanted to convey my appreciation for your effort and the results at Menotomy Rocks. I know that it was a difficult process, especially with the need for the park to remain open during construction and the intense neighborhood scrutiny. The conduct and cooperation from your crews was exceptional.

boys &
girls club

Please accept our sincere thanks for Emanouil Brother's participation in the recent landscaping improvement project done at the Billerica Boys & Girls Club. Seth Roosevelt [Project Manager], in particular, was instrumental in the design of the area, selection of plantings, planning and execution of the project. He worked closely with the folks from AS&E and Club representatives planning the project and providing supervision and worked with the AS&E folks throughout the day.
